## PROBLEM STATEMENT

In today's digital era, traditional resumes alone are not enough to showcase skills and project effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievement, skills and experience. Add a little bit of body text

## PROJECT OVERVIEW

- Brief summary of my project ●
- What my portfolio contains (about me, projects, skills, contact).
- Main idea: showcase personal achievement, skills, and projects.

## WHO ARE THE END USERS?

- Students (academic projects, resumes).
- Job seekers (to share with recruiters).
- Freelancers (to show clients).
- Professionals(to highlight experience and achievement).

## TOOLS AND TECHNIQUES

- Html: structure (pages, sections).
- CSS: styling (colours, layouts, responsiveness).
- JavaScript: interactivity(navigation menu, animation, form validation).
- Mention code editor (VS code)or CODEPEN and hosting platform (GitHub pages).

## PORTFOLIO DESIGN AND LAYOUT

- Sections included:
  - Home/ about me
    - Projects
    - Skills
    - Contact
- Responsive layout (mobile+desktop view).

## FEATURES AND FUNCTIONALITY

- Navigation bar with smooth scrolling.
- Project showcase with images/details.
- Interactive elements (hover effects, animation).
  - Contact form (with validation).
  - Responsive design for all devices.

## RESULT AND SCREENSHOT

- Screenshots of each section
- Before vs after (plain HTML: with CSS&JS).

# CONCLUSION

- Highlights of my project
  - Final summary
  - Benefits of society

**Thank  
You.**
